Improving Maryland's Health

Maryland's Children and Pesticides

The goals of this symposium are to:

1. Bring together parents, public health professionals, agricultural and environmental experts, policy makers, advocates, and others to discuss the complex relationships between pesticide usage in the State and the health of Maryland's children.
2. Discuss the latest scientific understanding of pesticide use, human exposure, and health outcomes data specifically related to children.
3. Identify gaps in current scientific knowledge and research about pesticides and children's health.
4. Discuss the implications of the current pesticide evidence base for Maryland's children.

Who Should Attend

People interested in children's health and health care, the environment, pesticide use and alternatives to pesticides

Location

Howard Community College
Columbia, Maryland

Preliminary Symposium Topics

- Assessment of Current Pesticide Uses and Exposures in Maryland
- Environmental Distribution and Fate of Pesticides
- Human Biomonitoring for Pesticide Exposure
- Pesticides and Children's Health: Latest Data
- Current Regulatory Framework for Pesticides in Maryland
- How the Current Pesticide Evidence Base can be Applied to Strategies for Maryland's Children

Registration Information

There is no fee for registration but attendance is limited. Registration will be on a first-come, first-served basis. If you are interested in registering for this one-day symposium, please mail this form to the address given below.
